

## Auto Registration

All students who drive to school must register their vehicle(s) and have a parking permit. Permits must be purchased from the Dean of Students. The cost is \$10.00 per year. **All vehicles must be registered and new permits obtained each school year.**

Sophomores will receive a red permit that allows them to park only in the lower west lot and church lot. Juniors and seniors with blue permits may park in any assigned student parking. Please review the Student-Parent Handbook for further details on student parking and auto registration.

If a student's permit is lost or stolen the student is required to purchase another permit at full price. Be sure to register any vehicle that may be driven to school.
